

Manufacturing and exporting cutting-edge technology.

Strong. Sustainable. Saskatchewan.

Saskatchewan is leading in innovation and manufacturing

Strong productivity

Saskatchewan's manufacturing sector has one of the most productive workforces in Canada.

Easy market access

With a central location in North America the province offers a network of road, rail and air transportation.

Leaders in innovation

Saskatchewan manufacturers are pioneering new technology from continuous mining equipment to autonomous farm tools, unmanned aerial vehicles and deep space antennas.

Our Competitive Edge

- Saskatchewan is recognized as worldwide leaders in shortline manufacturing of precision farm equipment. Our equipment can be found improving agricultural productivity in every corner of the world.
- Saskatchewan manufacturers support all the resource sectors from agriculture to mining, energy and forestry.
- Saskatchewan has two renowned research universities, three research parks and facilities, and Canada's only synchrotron.
- Saskatchewan's aerospace and defense companies have proven themselves to be world-class suppliers to international space agencies as well as aerospace and defense prime contractors.
- Saskatchewan manufacturers export their products around the world with a central North American location and excellent transportation infrastructure.
- Saskatchewan has one of the lowest corporate income tax rates for manufacturers in Canada.

Program and Incentives

Manufacturing and Processing Tax Credit

A refundable tax credit designed to encourage plant and equipment investment for manufacturing and processing activities for corporations with a permanent establishment in Saskatchewan.

Manufacturing and Processing Tax Reduction

Eligible corporations can reduce their Saskatchewan income tax rate on Canadian manufacturing and processing profits by as much as two percentage points.

Research and Development Tax Credit

Designed to encourage private-sector research and development investment in Saskatchewan, it is available to qualifying research and development expenditures incurred by corporations in Saskatchewan.

Agtech Growth Fund

Provides a non-repayable grant to projects that provide game-changing technological innovations in the province's agriculture sector.

Saskatchewan Commercial Innovation Incentive

This new-growth incentive gives eligible corporations a reduction in our corporate income tax rate to six per cent for up to 15 years.

They're Here For The Saskatchewan Advantage

"We have an amazing supply chain in Saskatchewan. We have no trouble sourcing most of everything we need right here from great Saskatchewan-based companies."

- Kipp Sakundiak, CEO, Prairie Machine

Saskatchewan is here and around the world.
